

WELCOME TO THE COWICHAN COMMUNITY WORKSHOP

The Cowichan Community Workshop (CCW) is a place for **everyone** where you can come in and enjoy creating personal projects, learn new skills, meet new friends and generally have fun working with your hands in a safe and welcoming workshop. We are a not-for-profit organization and a majority of our tools and materials are donated to the CCW by members or local donors, membership fees help cover shop costs and tool maintenance. The supervisors in the shop are volunteers with a wide range of skill sets. The knowledge they have can be passed on to you, all you have to do is ask!

Safety is a high priority at the CCW, we will ask you to complete an orientation and safety check on power tools and hand tools prior to use. For younger members, a tiered safety skill program will be available to teach them safe operation of power tools as they develop.
